

HACCP (Hazard Analysis and Critical Control Point) nije standard, to su smernice koje je dao Codex Alimentarius za uspostavljanje kontrole i sprečavanje i eliminisanje rizika po bezbednost hrane u:

- Pripremi i distribuciji hrane - za potrebe bolnica, hotela, restorana, avionskih kompanija, itd
- Trgovini - maloprodaji i ugostiteljstvu
- Prehrambenoj industriji

Odeća koja odgovara zahtevima **HACCP** sistema je:

- bez vidljivih zakopčavanja
- bez spoljnih džepova
- u različitim bojama za svaki deo proizvodnog procesa
- sa prilagođenim načinom održavanja

Hazard Analysis and Critical Control Points (HACCP) is a systematic preventive approach to food safety and pharmaceutical safety established by The Codex Alimentarius in order to prevent and control as well as eliminate the risk regarding food safety in:

- preparation and distribution of food - for the needs of hospitals, hotels, restaurants, airline companies and others
- trade - retail and catering
- food industry

The clothes that suit the regulations of **HACCP** system should be:

- with no visible buckles
- with no external pockets
- in matching fabric colours for each production phase
- with a customized way of maintenance

HACCP
